

EDNA INDEPENDENT SCHOOL DISTRICT

Student Random Drug Testing

By action of the Edna ISD Board of Trustees the District will conduct random drug tests on students' grades 7 -12 who participate in extra and co-curricular activities.

For purposes of this policy (FNF LOCAL), school-sponsored extracurricular activity shall be defined as, without limitation, all interscholastic athletics, cheerleading, dance team, academic clubs, special interest clubs, musical performing groups, dramatic productions, student government, and any other activity or group that participates in contests, competitions, or community service projects on behalf of or as a representative of the District.

To be eligible to participate in any school-sponsored extracurricular activity, students in grades 7-12 must agree to participate in a random drug-testing program that includes mandatory testing of all participants. Failure to agree to participate in the drug-testing program renders the student ineligible to participate in the defined extra or co-curricular activity out lined in paragraph two above. Further, if on the day the student is randomly selected to be tested the student and/or the parent or guardian of the student refuses to allow the test, the student becomes immediately ineligible for the defined extra or co-curricular activity.

The results of any drug test administered under this policy shall be used only to determine eligibility for participation in school-sponsored extracurricular and co-curricular activities. However, a student confirmed to have violated the District's alcohol or controlled substances policy [see FNCF (LEGAL)] by either being under the influence or using alcohol or controlled substances while at school or at a school-related activity shall be subject to appropriate disciplinary action in accordance with the Student Code of Conduct.
